About TARNATION:

Having filmed his life since he was 11 years old, Jonathan Caouette has woven a psychedelic whirlwind of snapshots, Super-8 home movies, answering machine messages, video diaries, early short films, snippets of '80s pop culture and dramatic reenactments to create an epic portrait of an American family torn apart by dysfunction and reunited through the power of love.

The film made history when it debuted at the Sundance Film Festival as the first feature to be edited completely with Apple's iMovie software.

Executive produced by Gus Van Sant and John Cameron Mitchell.
